LOBBY CARD

11 x 14" printed on heavy stock paper. Used as display in theatre lobbies. Originally made in sets of eight. Some sets have a title card, which contains credits and artwork, essentially a mini-poster. The remaining seven cards are coloured photographic credits and poster artwork showing different scenes from the movie.

WINDOW CARD

14 x 22" printed on heavy stock paper with the top 4-6 inches usually left blank for the local cinema owner to fill in the cinema and the date it was due to play. Largely discontinued during the 1970's.

HALF SHEET

22 x 28" printed on heavy stock paper. The image displayed is normally a smaller version of the main poster, although some do have different artworks and sometimes come in two versions.

INSERT

14 x 36" printed on heavy stock paper. Inserts usually have the same artwork as a one sheet. Popular with collectors since they are smaller and easier to frame. Normally come tri folded or rolled.

60" X 40"

60" X 40" printed on heavy stock paper. Rare since they were primarily used for major motion pictures only. Designed to be used outside the theatre, on an easel, normally at a drive-in movie theatre.

ONE-SHEET

27 x 41" printed on paper. This is the most common size of poster, intended to be displayed in a glass "marquee" case. It is the most sought after size by collectors. Since the 1980's most posters are sent to the theatre rolled and maybe slightly smaller measuring 27" by 40" and with the advent of backlit light boxes a growing number of modern movie posters are available double-sided and the more traditional single-sided.

THREE-SHEET

41 x 81" printed on paper. These were printed on two or three separate sheets designed to overlap, few survive. Used for larger advertising spaces, normally posted on walls, perfect for huge movie theatres the drive-in, where people could see them from a distance. From the 1970's on, three-sheets were sometimes printed in one piece and issued as "international" versions to be used abroad.
